

Sama

On the surface, Sama is an unassuming mono linear typeface with rounded terminals. But, with genial curves that gently billow its forms, Sama breathes new life into a sedate and saturated genre. Despite its closed counters, such subtle gestures in lighter styles lend each page a certain weightlessness; as Sama balloons in weight, these features bounce around with a youthful verve. No matter the language, Sama (meaning natural ambience in Hindi) is an amiable space to house your message.
